

Registration

To register for the event, please contact Michelle White (Michelle.White@phoenix.com) +1 503 614 5209 by June 22nd 2011. (*Registration is now closed for testers. If someone wants to just attend the sessions, they can still register with Michelle.*) Please include your company, full address, names of all attendees, **phone numbers and email addresses for everyone**. Please also include information about what you will be bringing to test and any special needs. Locked testing rooms will be assigned on a first come, first served basis. If space is exceeded, a wait list will be maintained and Microsoft will explore expanding available offices.

Schedule

The primary purposes of the event are to provide time for interoperability testing between vendors of their latest UEFI related hardware and software as well as to educate the attendees on UEFI implementation experiences and best practices.

The following presentations are currently scheduled for the event.

- Event Opening and Welcome – Microsoft (Tony Mangefeste)
- UEFI State of the Union and Ecosystem Enabling Update – Intel (Mark Doran)
- Implementing a Secure Boot Path with UEFI 2.3.1 – Insyde (Jeff Bobzin)
- UEFI SCT (Testing) Overview – HP/Intel (Dong Wei/Harry Hsiung)
- Replacing VGA: Implementation of GOP for UEFI - AMD (Paul Blinzer)
- UEFI Prototyping Using a Windows-hosted UEFI Environment – Phoenix (Tim Lewis)
- Best Practices for UEFI Option ROM Developers– AMI (Brian Richardson)

The core dates for the event will be Wednesday, Thursday and Friday July 6th through 8th. The venue will be available the afternoon of July 5th for set up by participants and the morning of July 9th will be available for overflow testing and tear down.

Intel will host an evening dinner event, Wednesday evening July 6th, 6:30 PM at Ruth's Chris Steakhouse in Bellevue. A RSVP before June 29th will be required to attend. If you have not already RSVPed to Michelle, please send email to Bailey Cross at bailey.t.cross@intel.com.

There will be opportunities for hands-on **UEFI Shell training** and experience in a lab presented by Laurie Jarlstrom of Intel. There will also be a lab on **GOP Enablement and Testing** presented by Anil Kulkarni and Abhiram Iyler of Intel.

Shipping Information

UPDATE - Deliveries should be scheduled to arrive at MS Receiving at least two business days prior to the first day of the event. The address below must be specified in order to assure delivery. Do not list an individual contact.

Microsoft Corp., Attn: OASIS, Inc. , UEFI Plugfest B-20
4330 150th Avenue NE, Redmond (Building 124)

OASIS will pick up the equipment the day prior to the event and transport to B-20. OASIS will return on the last day of the event, to collect the equipment and deliver to MS Shipping for freight out.

At the end of the event, each company must schedule their own shipment and pickup at this location with your choice of shipping vendor.
