

Dear UEFI Enthusiasts and Firmware Developers,

The UEFI Testing Working Group (UTWG) from the Unified EFI Forum (UEFI) would like to invite you to the China UEFI testing workshop event, which will be held at the Byosoft Public Platform Facility in Nanjing China in the week of June 11, 2007. Nanjing Byosoft is a UEFI contributor and a member of UTWG.

The event is open and free to all attendees from companies that are UEFI members. We have arranged the event in China to meet the needs of companies located in the surrounding area. We encourage companies who are not yet on the UEFI member's list to sign up through the <http://www.uefi.org> and get ready to participate.

Upon receiving your participation response and interest, we will send you a logistics package to help you prepare for a successful test event. Additionally, participants are encouraged to download, run and submit the UEFI Self Certification Tests (SCT) results to the UTWG prior to the event. The UEFI SCT release will be available on the Members page on the UEFI web site <http://www.uefi.org>

Participants in the test event will include UEFI members who are Add-in Card Vendors, Operating System Vendors, Independent Software Vendors, Independent BIOS Vendors and Original Equipment/Design Manufacturers (OEM/ODM) platform Vendors.

The purpose of this event is to provide the computing industry with an opportunity to conduct interoperability tests with a variety of implementations of UEFI and interact with implementers directly. This event will allow add-in cards to run the UEFI SCT on various UEFI system implementations and to test using a variety of Operating Systems. This event will also help platform vendors to test motherboards and systems supporting UEFI.

If you know of other groups/divisions in your company that would benefit from attending, especially those in Asia, please forward this letter to them.

Please respond to Colin Wei(weijing@byosoft.com.cn) **by April 30,2007** to let us know your participant status in this event.

I would like, on behalf of UTWG, to thank Byosoft for providing the Lab Facility and host this event with the UEFI Forum.

We look forward to seeing you in China!

Best Regards,

A handwritten signature in blue ink, appearing to read 'Dong Wei'.

Dong Wei
VP and UTWG Chair
